I hope you and your family are staying safe and healthy.

I want to get this to your attention that in order to bring an immigration reform for the PHYSICIANS AND NURSES in existing green card backlog especially with COVID19 emergency facing significant shortages, four Congressmen {Brad Schneider (D-IL), Tom Cole (R-OK), Abby Finkenauer (D-IA), and Don Bacon (R-NE)} came up with a solution and introduced the Bipartisan Bill 'HEALTHCARE WORKFORCE RESILIENCE ACT' H.R.6788 in house. This is 'A bill to enhance our Nation's nurse and physician workforce during the COVID-19 crisis by recapturing unused immigrant visas'. There is a companion bipartisan bill (S.3599) in senate introduced by six senators {Senators Perdue (Georgia-R), Durbin (Illinois-D), Leahy (Vermont-D), Cornyn (Texas-R), Todd Young (Indiana-R), Coons (Delaware-D)}.

This bill will alleviate visa based restrictions for US trained and licensed international physicians so that the white coat warriors and nurses can be deployed whenever and where ever they are needed to fight COVID 19 pandemic now and in future. It is a onetime solution offered in light of pandemic, this provision allows recapturing of unused immigrant visas (green cards) from previous years.

NEUROLOGY

Amir Hashmat, M.D.
